

RFP Response: BrightPath Tech

Procurement request: Customer Support Ticketing Platform Migration

Executive Summary

BrightPath Tech offers a fast, low-cost migration using our existing SaaS ticketing product configured to the client's workflows.

Proposed Solution & Architecture

Multi-tenant SaaS platform configured via standard web forms and email-to-ticket conversion. Custom integrations beyond Zendesk/Freshdesk import require separate scoping, not included here.

Implementation Plan, Team & Milestones

Aggressive 10-week timeline: Setup (2wk), Configuration (4wk), Data Import (2wk), Go-live (2wk). Team of 3 (part-time), shared across other client accounts.

Phase	Duration
Setup	2 weeks
Configuration	4 weeks
Data import	2 weeks
Go-live	2 weeks

Commercial Value

Total Year 1 cost \$118,000 for 200 agent seats, standard configuration only. Renewal pricing quoted separately.

Line item	Cost (USD)
Setup & configuration	\$38,000
Year 1 licensing (200 seats)	\$80,000
Total Year 1	\$118,000

Security, Compliance & Risk Controls

Runs on major cloud infrastructure providers. Follows industry best practices for data security.

Support Model, Experience & References

Standard email support, business hours only (9am-6pm Mon-Fri). Has helped several small/mid-size companies migrate.
