

RFP Response: Orbit Digital

Procurement request: Customer Support Ticketing Platform Migration

Executive Summary

Orbit Digital brings deep domain experience in customer support transformations, having delivered dozens of successful platform rollouts.

Proposed Solution & Architecture

Will implement a leading ticketing platform tailored to client needs. Specific integration architecture finalized during discovery once existing systems are better understood.

Implementation Plan, Team & Milestones

Estimated 6-8 months depending on scope finalized during discovery. Senior consultants drawn from broader delivery bench as needed.

Phase	Estimated duration
Discovery	4-6 weeks
Build	12-20 weeks
Testing & go-live	4-6 weeks

Commercial Value

Estimated total investment \$300,000-\$380,000 depending on final scope. Detailed breakdown provided after discovery. Travel/expenses billed at cost.

Line item	Estimated cost (USD)
Discovery & scoping	\$40,000
Implementation (range)	\$220,000 - \$290,000
Year 1 support (est.)	\$40,000 - \$50,000

Security, Compliance & Risk Controls

Follows applicable data protection regulations; can accommodate client security requirements as defined during discovery. Certification documentation available upon signing.

Support Model, Experience & References

Over 40 platform engagements across 12 years, including Fortune 500 clients. Five references from retail, healthcare, financial services. Named account manager, business-hours helpdesk.
