

# RFP Response: QuickDesk Solutions

Procurement request: Customer Support Ticketing Platform Migration

## Executive Summary

QuickDesk Solutions offers an ultra-fast, no-frills deployment of our off-the-shelf ticketing product, ideal for teams that need to go live immediately.

## Proposed Solution & Architecture

Out-of-the-box SaaS product with almost no configuration; relies on the client adapting workflows to the tool rather than the reverse. Two integrations included (email, one CRM).

## Implementation Plan, Team & Milestones

4-week timeline: Setup (1wk), Data import (1wk), Training (1wk), Go-live (1wk). One implementation specialist assigned part-time alongside other accounts.

| Phase       | Duration |
|-------------|----------|
| Setup       | 1 week   |
| Data import | 1 week   |
| Training    | 1 week   |
| Go-live     | 1 week   |

## Commercial Value

Total Year 1 cost \$58,000 for up to 100 seats. Minimal customization included; most changes require a paid change order.

| Line item        | Cost (USD) |
|------------------|------------|
| Setup            | \$8,000    |
| Year 1 licensing | \$50,000   |
| Total            | \$58,000   |

## Security, Compliance & Risk Controls

Basic cloud security practices followed. No formal certifications currently held.

## Support Model, Experience & References

Community forum plus email support, no formal SLA stated. This would be among the vendor's first mid-size enterprise clients; no references provided.
