

RFP Response: Sagewell Consulting

Procurement request: Customer Support Ticketing Platform Migration

Executive Summary

Sagewell Consulting proposes a pragmatic, mid-market-focused migration balancing cost discipline with solid technical fundamentals.

Proposed Solution & Architecture

Standard cloud-hosted ticketing platform with role-based workflows and the top 5 most commonly requested integrations pre-built (Slack, Salesforce, Jira, Zendesk import, generic email).

Implementation Plan, Team & Milestones

14-week timeline: Discovery (2wk), Build (7wk), Integration (3wk), UAT (1wk), Go-live (1wk). Team of 6 with a named delivery lead.

Phase	Duration
Discovery	2 weeks
Build	7 weeks
Integration	3 weeks
UAT & go-live	2 weeks

Commercial Value

Total cost \$255,000. Assumes client uses at least 3 of the 5 pre-built integrations; additional custom integrations quoted at \$15,000 each.

Line item	Cost (USD)
Implementation	\$205,000
Year 1 support	\$50,000
Total	\$255,000

Security, Compliance & Risk Controls

SOC 2 Type I certified. TLS in transit, encryption at rest. Standard RBAC. Annual internal security review, no third-party pen test mentioned.

Support Model, Experience & References

Business-hours support, 4-hour response SLA. 5 similar mid-market migrations in 3 years. Two references available.
